Cookie Policy

Last updated: 4 October 2026

This Cookie Policy explains how siemoto.me uses cookies and similar technologies.

1. What are cookies?

Cookies are small text files stored on your device when you visit a website.

They help the website function properly, remember certain settings and, with your consent, analyse website usage and improve the user experience.

2. Cookies we use

On siemoto.me, we use the following categories of cookies:

Necessary cookies
These cookies are required for the proper functioning of the website and its basic features, such as the shopping cart, checkout, session management and remembering your cookie consent preferences. Necessary cookies are always active.

Functional cookies
Functional cookies enable additional website features and help improve the user experience, for example by remembering recently viewed products and supporting embedded content. These cookies are used only with your consent.

Analytics cookies
Analytics cookies help us understand how visitors use the website, including the number of visits, pages viewed, traffic sources and interactions with content. For this purpose, we may use Google Analytics and Microsoft Clarity. Analytics cookies are used only with your consent.

Performance cookies
Performance cookies help us understand and improve the performance of the website and its services. They may collect information about how the website and embedded content perform and are used only with your consent.

Advertisement cookies
Third-party cookies may be used to measure advertising-related interactions and conversions and to support embedded content. These cookies are used only with your consent.

3. Consent and managing cookies

When you first visit the website, you can:

- accept all cookies;
- reject all non-essential cookies;
- manage individual cookie categories.

Necessary cookies cannot be disabled through the consent management system because they are required for the website to function properly.

You can change or withdraw your consent at any time through the cookie settings available on the website.

You can also manage cookies through your browser settings. Disabling necessary cookies through your browser may affect the proper functioning of the website.

4. Third-party cookies and services

The website may use third-party services, including Google Analytics, Microsoft Clarity and YouTube.

These services may use cookies and similar technologies to analyse website usage, measure performance, display embedded content or measure advertising-related interactions.

Cookies from these services that are not necessary are used only after you provide the appropriate consent.

5. Cookie list

An up-to-date list of cookies used or that may be used on this website, including their category, duration and purpose, is available on the Cookie Policy page on siemoto.me.

Because this list is generated and updated through the website's cookie consent management system, the online version should be consulted for the current technical cookie details.

6. Contact

If you have questions about the use of cookies or the processing of personal data, please contact us at:

info@siemoto.me

Additional information about the processing and protection of personal data is available in our Privacy Policy on siemoto.me.
